Construction services

About Company

Today, our Zesty team has over 100+ full-time employees across its offices, in Baghdad, Erbil, and Basra. It continues to grow as a leading provider of services with a range of business units committed to rebuilding and serving emerging markets and globally

Locally and internationally, we focus on long-term business success through the hard work of our employees, who do have superior knowledge.

Our goal is to satisfy the evolving needs of our customers by providing unparalleled service and excellent products while always embracing our company objectives to:

Develop long-term partnerships with our customers and suppliers. Consistently meet our customers' expectations with our service and product quality. Work with honesty, integrity, and respect at all times. Continuously improve our best practices to maximize environmental, social, and economic sustainability. Embrace change and encourage innovation. Offer our employees a challenging and rewarding workplace that inspires loyalty and success. Seek excellence in everything we do. Respect the environment and communities within which we operate.

Our Value

Mission

Zesty provides quality workmanship and customer service and maintains the highest level of professionalism, honesty, and fairness in our relationships with our customers, employees, and vendors. To grow by continually providing useful and significant products, services, and solutions to markets we already serve – and to expand into new areas that build on our competencies and customer interests.

Vision

At Zesty we want to develop further together efficiently and with a clear goal so that we can steadily increase the earning power of the company for the benefit of all. In this, the aspects of safety at work and protecting the environment are integral components of everything we do.

ZESTY MANAGEMENT AND CONSTRUCTION SERVICE

Data Centre Solutions

Data Centre it's a mixing of IT and engineering technologies that are not limited to IT we also need civil, electrical, and mechanic experience. We and our Partners provide strategic planning, Process, and technology to ensure the best solution for you to implement your Data Center. We are using the best practices and international standards to deliver effective and efficient services.

Smart Homes

Customize a smart security system with home automation that lets you check in on your home, answer the door, and adjust lighting and temperature from anywhere. From cameras to smart locks and sensors, our experts will help you customize a smart home system that's perfect for you. From sensors, smart locks, and lighting to indoor and outdoor security cameras smart home devices work together as one system to enhance convenience and safety. You can even integrate your system with Google Assistant, Amazon Alexa, a Nest thermostat, and other products like that.

CCTV SYSTEM

Zesty is one of the leading companies in the field of providing and installing CCTV system products and solutions. Monitor and record everything that happens in your office with our first-class office security cameras. To protect your office from intrusion, it is a system for visual and audio monitoring, recording the various events that take place in the monitored areas and reviewing these events when needed. CCTV systems are monitoring solutions for buildings and fixed installations where 24-hour surveillance is the top priority. CCTV camera system acts as an instant deterrent to potential intruders. Theft and abuse, experts at **Zesty** create an integrated business security solution for you.

Zesty Management and Construction service

ENERGY

Zesty sources and supplies replacement parts for General Electric industrial turbines (Gas F5, F6 and F9). We are a trusted supply chain partner for power generation facilities throughout the globe.

With over 50 years of combined experience, **Zesty's** knowledgeable staff provides prompt, professional, and dedicated customer service from our headquarters in Iraq - Baghdad - AL-Mansoor 14th ST Ramadan.

Zesty understands the critical needs of power plant operators. We stock a wide range of consumable spare parts at our facilities, often ready to ship same-day. For those items not in stock, **Zesty's** strong supplier network of OEMs and proven aftermarket manufacturers ensures rapid delivery turnaround. We get you the right part at the right time.

Zesty believes that our solutions will soon become one of the biggest segments in the industry. We've only just started, but we already know that every product we build requires hard-earned skills, dedication, and a daring attitude.

ZESTY

Management and Construction services

Zesty Management and Construction service

Trust yourself. You can do this.

Development Construction

Zesty completes prefabricated modular steel structures towards meeting all kinds of needs on a turnkey basis in different geographical regions under harsh climatic conditions simultaneously with in-house engineering, procurement, production, logistics, assembly, infrastructure, and superstructure works, including testing and commissioning. Zesty completes prefabricated modular steel structures towards meeting all kinds of needs on a turnkey basis in different geographical regions under harsh climatic conditions simultaneously with in-house engineering, procurement, production, logistics, assembly, infrastructure, and superstructure works, including testing and commissioning.

Zesty manages the entire lifecycle of a project with in-house design, construction, and operation services by using Building Information Modeling (BIM) rather than traditional methods, by catching the necessities of the era with Modern Methods of Construction (MMC), Design for Manufacturing and Assembly (DFMA) and Designing for Industrialized Methods of Construction (DIMC).
